

What is Claimed:

1. In a cargo carrying helicopter wherein the cargo is suspended below the helicopter chassis the improvement comprising:
 - a skirt disposed between the helicopter chassis and the cargo and
5 extending outwardly and opening downwardly over the suspended cargo, said skirt terminating in a outwardly directed circumferential lip.
2. The improvement of Claim 1 wherein said skirt extends over the helicopter landing gear.
3. The improvement of Claim 1 wherein the lip extends outwardly in a
10 substantially horizontal direction.
4. The improvement of Claim 3 wherein the lip is semicircular in cross section, opening upwardly.
5. The improvement of Claim 1 wherein said skirt is plexiglass.
6. The improvement of Claim 1 wherein the skirt is substantially frustrum-
15 conical.
7. The improvement of Claim 1 wherein the skirt is substantially elliptical in cross-section.
8. The improvement of Claim 1 wherein the cargo is anchored to the skirt.
9. The improvement of Claim 1 wherein the skirt is attached to the helicopter
20 chassis.
10. The improvement of Claim 1 wherein the skirt comprises a plurality of interconnected sections.

11. The improvement of Claim 10 wherein at least one of said sections is opaque.

12. The improvement of Claim 10 wherein at least one of said sections is transparent.
